

# Annual Sidewalk Maintenance Program

## Maintaining Your Pedestrian Amenities

Project Update

July 2009

**Who:** The City of Kirkland along with the contractor, Merlino Brothers, LLC, will be repairing and replacing selected sidewalks around Kirkland.

**Where:** The construction map on the back of this flyer indicates the streets in your area that have been selected for resurfacing this year.

**When:** Construction for the 2009 Sidewalk Maintenance Program is scheduled to begin in mid-July and complete by the end of July. It is possible the construction schedule will change due to weather conditions.

**What to Expect:** If the sidewalk replacement occurs in front of your house, the Contractor will notify you at least 24 hours prior to removing the old concrete and again prior to placing the new concrete. The new sidewalk material will typically be placed within a few days following the removal. Please be aware, however, that scheduling of sidewalk repairs in other areas of the City and/or poor weather conditions may delay the placement of the new concrete but the contractor will do their best to provide an appropriate temporary walking surface.

Parking will not be permitted adjacent to the work area until after all new concrete has cured. If sections of your driveway have been identified for replacement the contractor will notify you in advance. In these areas it will be necessary to keep vehicles off the new concrete for up to three days. Vehicular access will be maintained at all times by pouring the new curb and driveway in two sections.

Inconvenience caused by construction will be minimized to the extent possible. Emergency vehicle access will be maintained at all times throughout the work. Merlino Brothers, LLC will schedule activities around regular garbage/recycling pick-up schedules.

### How You Can Help:

Your cooperation in ensuring the area of roadway affected by the project is not obstructed with vehicles or other items is greatly appreciated. Thank you in advance for your patience and cooperation as we make improvements to your neighborhood. Please contact us should you have any questions or concerns.
